

# SERVICES GUIDE

CIVIL CONSTRUCTION, TRUCKING  
& LOGGING SERVICES IN NORTHERN ALBERTA

# YOUR ONE-STOP SHOP

## FOR CONSTRUCTION, TRANSPORTATION & LOGGING SERVICES

We offer a wide range of civil construction, trucking and logging services in the Grande Prairie region. We are experts in road construction, industrial and commercial lot development and we do stump-to-dump log harvesting and are proud of our commitment to safety and the environment.

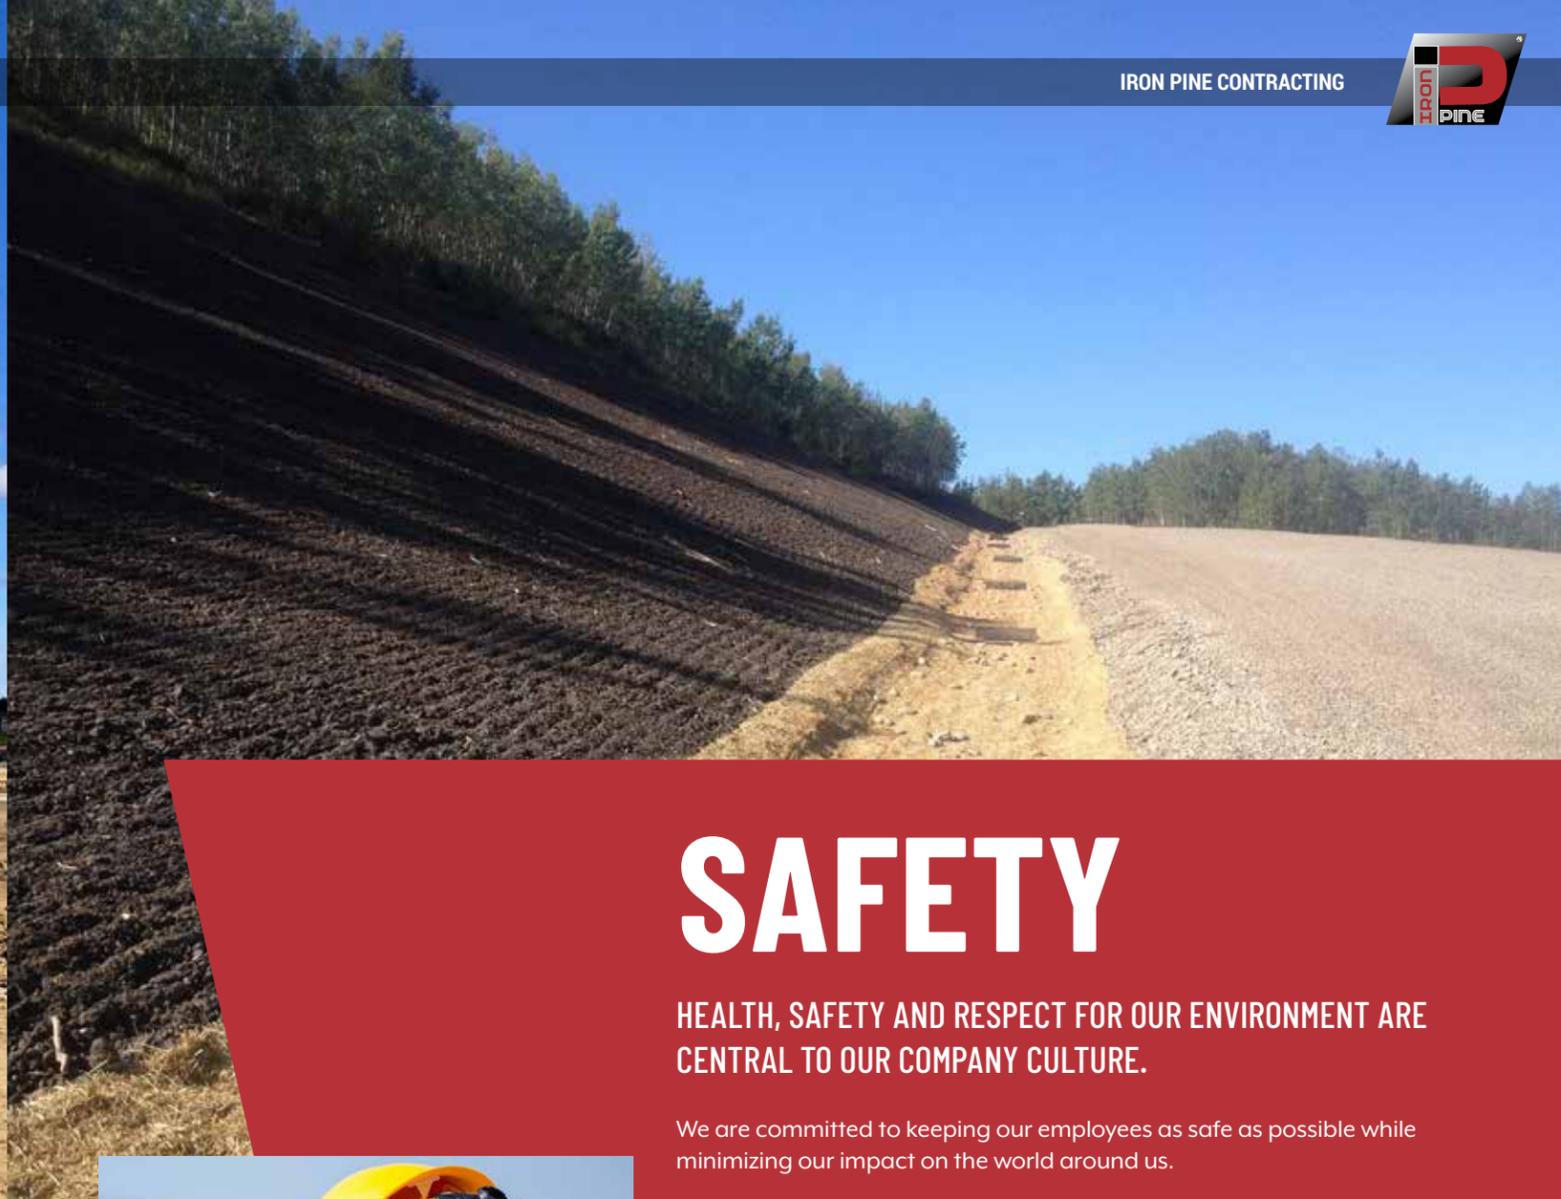

We are a part of the FTEN Group of Companies, which has been serving Alberta Transportation, counties, cities, the private sector and sawmills in Northern Alberta for more than 20 years. We have built our reputation on a well-rounded list of services and being one of the most efficient and cost-effective businesses in the industry.

Safety, training and respect for the environment are cornerstones for our company, and are reflected in everything we do. We are dedicated to following all safety and environmental regulations, while also being an enjoyable and rewarding place to work.

All of our employees receive on-the-job training and mentorship, and we encourage them to continue learning and improving their skills.

We have a full line of equipment with access to many different resources, and a skilled team of professionals who are committed to getting the job done right.

# CONSTRUCTION

**WE OFFER A WIDE RANGE OF COMMERCIAL AND INDUSTRIAL CONSTRUCTION SERVICES IN THE GRANDE PRAIRIE AREA.**

We specialize in road building and commercial lot construction for both the public and private sectors. Whether it is connecting a work site to an existing road, clearing a 50-acre section, developing an industrial lot or completing work for Alberta Transportation and local municipalities, Iron Pine will get the job done right and on budget.

Many civil construction companies rely on outside contractors to clear the right of way, log the worksite and haul the materials. Iron Pine has its own logging equipment and trucking fleet so we can provide all of these services in house, which saves you both time and money.

## CONSTRUCTION EQUIPMENT

In addition to a fleet of trucks and heavy equipment, including excavators, graders, crawlers and tractors, Iron Pine also uses a Topcon GPS Positioning System to ensure the road or work site is cut exactly to design spec. This automatic system operates the equipment with millimeter precision, and features the most advanced civil construction technology in the world.

# SAFETY

**HEALTH, SAFETY AND RESPECT FOR OUR ENVIRONMENT ARE CENTRAL TO OUR COMPANY CULTURE.**

We are committed to keeping our employees as safe as possible while minimizing our impact on the world around us.

All of our employees receive on-the-job training and mentorship, and we encourage them to continue learning and improving their skills. We have mandatory safety orientations, hands-on supervision and regular face-to-face meetings where safety concerns are brought to management's attention. We have qualified safety auditors on staff, and we require our employees to follow all rules and regulations. Nobody does safety like Iron Pine.

This commitment carries over to the environmental side as well. There are many environmental regulations to follow while working on remote job sites like ours, and we don't cut corners when it comes to our workplace practices. All of our cutblocks are replanted and brought back to their original state, ensuring the continued health of both our forests and our industry.

We are proud of our reputation for safety and environmental protection, and would be happy to discuss our practices.

# HAULING & TRUCKING

WE OFFER HAULING AND TRUCKING SERVICES TO BUSINESSES ACROSS NORTHERN ALBERTA.

The bulk of our trucking is in support of our logging and road construction projects, but we also offer custom hauling for a variety of jobs.

## OUR FLEET

We have an extensive fleet of vehicles, with low bed trailers for heavy equipment hauling, and gravel trailers, We also have both highway and offroad log-haul capabilities. Our drivers are well trained and qualified, and committed to hauling your materials or equipment in the quickest, most efficient way possible.

# LOG HARVESTING

WE ARE GRANDE PRAIRIE'S LOG HARVESTING EXPERTS.

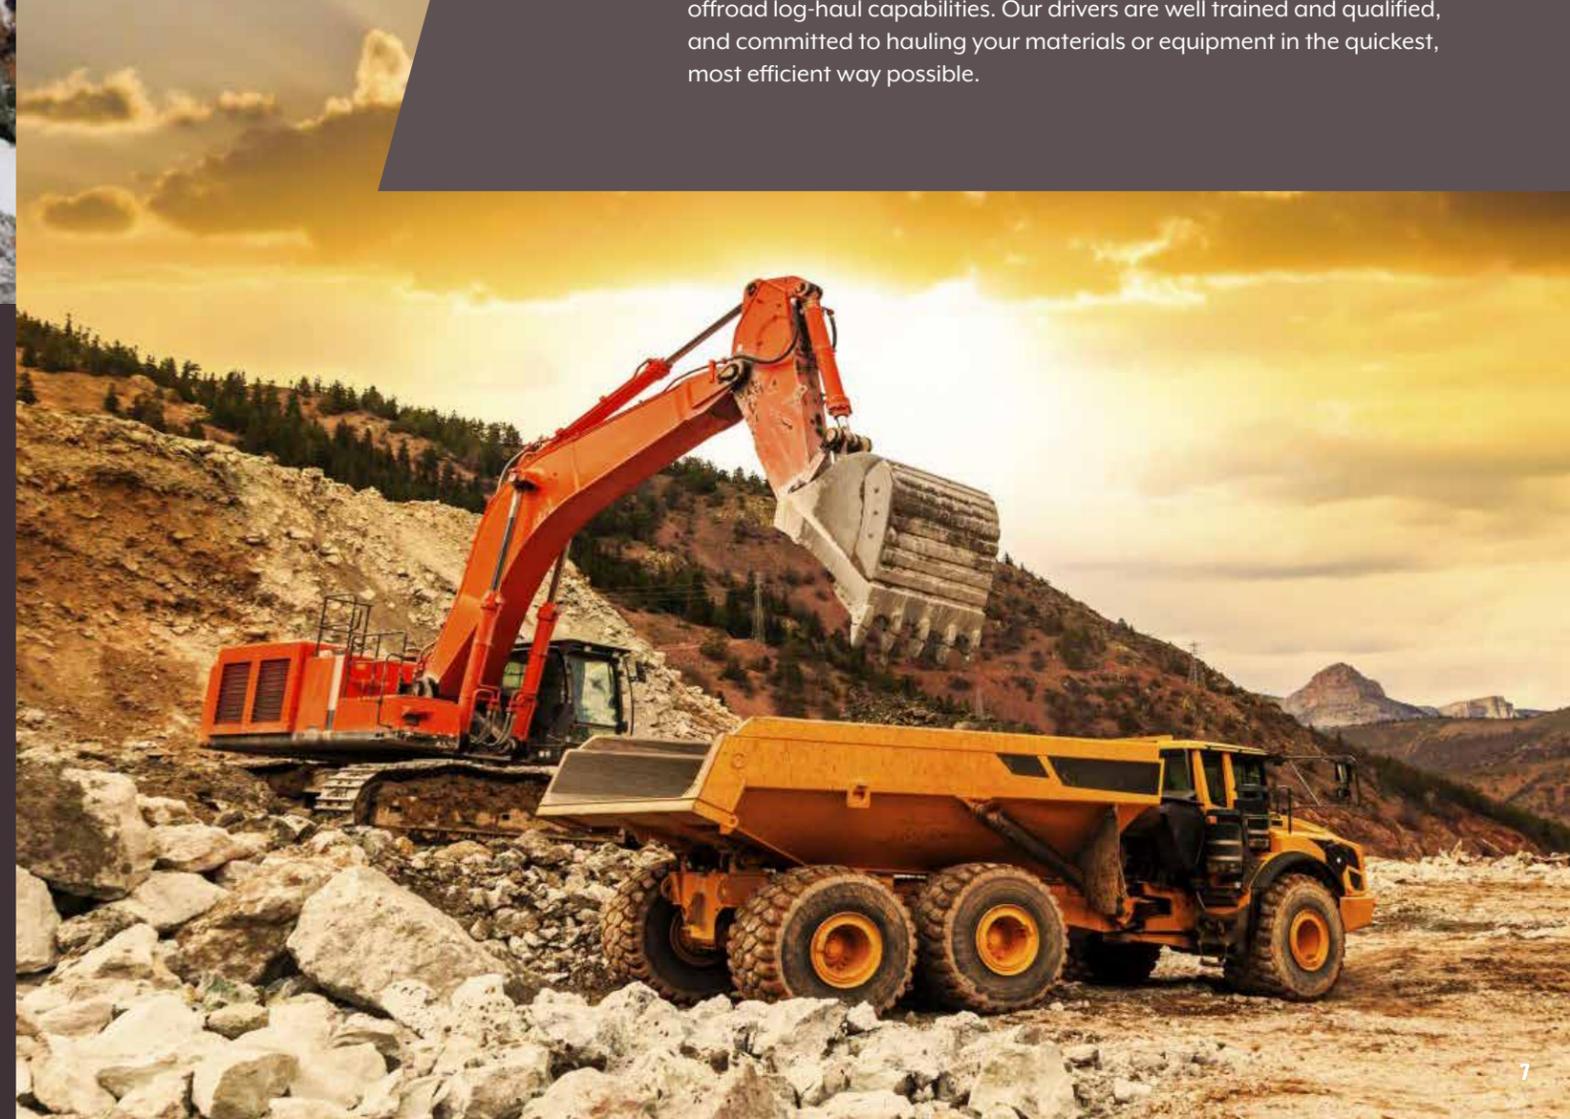

We offer contract log harvesting and hauling services to sawmills across Northern Alberta, and have built our reputation on efficient, cost-effective service with a second-to-none commitment to safety and the environment.

## LOGGING EQUIPMENT

We have a full line up of log harvesting equipment, including bunchers, skidders, processors, crawlers, log loaders, graders, excavators, trailers and mulchers. We can cut our own right of way, and process, load and deliver the logs to the sawmill.

## SAFETY & THE ENVIRONMENT

Our commitment to safety and the environment is essential to Iron Pine's company culture. We are dedicated to keeping our employees as safe as possible while minimizing our impact on the world around us. To this end, we ensure all rules and regulations are followed by everyone in our organization. We are proud of our record, and encourage our employees to bring up any concerns with their supervisors. Nobody does safety better than Iron Pine.
