

THE FTEN GROUP OF COMPANIES: FORESTRY & CONSTRUCTION EXPERTS

An aerial photograph showing a long, straight road under construction or recently completed, cutting through a landscape of green fields and dense evergreen forests. The road surface is light-colored, possibly gravel or fresh asphalt, and shows signs of heavy machinery use. A single white car is visible on the road. The sky is overcast with soft clouds. A large, semi-transparent red graphic element, resembling a stylized 'C' or a road curve, is overlaid on the lower half of the image, framing the text.

COMPANY HISTORY

FTEN Group of Companies Inc. began as a single construction company helping Northern Albertans with a staff of 50 people. Now it is a thriving group of four companies consisting of over 300 employees, sharing their logging, trucking, and construction services across all of Alberta.

FTEN PROVIDES LOGGING, TRUCKING, & CONSTRUCTION SERVICES TO THE PEACE REGION AND ACROSS ALBERTA.

You can't talk about FTEN without first talking about Forest Trotter.

Forest Trotter Construction was founded in 2000 in La Crete, Alberta by Ernie Driedger. Back then, the company focused on construction and scarification before acquiring Neudorf Logging in 2002. And suddenly, Forest Trotter was in the logging business.

In 2009, Forest Trotter joined with Pineridge Chippers to create Northern Road Builders, allowing for the opportunity to pursue larger and more diverse projects across Alberta. Pineridge shares in Northern Road Builders were eventually bought out by Forest Trotter.

Northern Road Builders creation was also during FTEN's. At that time, FTEN was known as 1567081 Alberta Ltd. and was the parent company for both Forest Trotter and Northern Road Builders. But it would soon become much more, signified by the purchase of Exact Harvesting in 2012 and the change to FTEN Group of Companies Inc. in 2015.

Forest Trotter expanded its operations in 2013, starting logging camps in the Grande Prairie area for Weyerhaeuser, and began a new branch for logging and construction in 2016 called Iron Pine Contracting. Iron Pine Contracting joined Forest Trotter, Northern Road Builders, and Exact Harvesting in the parent company of FTEN.

ABOUT FOREST TROTTER

Forest Trotter is an independently owned logging operations company with its head office in La Crete, Alberta. Our services go beyond logging: we also tackle seedling snow caches, line clearing, snow clearing, winter road building and silviculture site preparation. On the hauling side, we tackle all sorts of trucking services. Our repertoire extends from log hauling, lowbed hauling, Hi-Boy trucking, to gravel and dirt hauling.

LOG HARVESTING, HAULING, HEAVY EQUIPMENT HAULING & MORE

We at Forest Trotter provide extensive logging, transportation and industrial services to the Northern Alberta. Our team is proudly dedicated to safety and the environment, which allows us to operate efficiently and cost-effectively without unnecessary delays. For your logging and hauling operations, put your confidence in Forest Trotter.
